

SecKC December News

By @net_code / Isaiah

Vulnerabilities

SHUT THE

SHUT THE FUCK
UP YOU DONT HAVE THE TALKING STICK

UniFi RCE (no auth)

<https://gbhackers.com/critical-unifi-os-flaw/>

React2Shell

<https://react.dev/blog/2025/12/03/critical-security-vulnerability-in-react-server-components>

<https://react2shell.com/>

Microsoft finally fixed that funny Ink bug

https://www.theregister.com/2025/12/04/microsoft_Ink_bug_fix/

Breaches

US nuclear weapons plant was popped cause Sharepoint

<https://www.csoonline.com/article/4074962/foreign-hackers-breached-a-us-nuclear-weapons-plant-via-sharepoint-flaws.html>

KCPD secret misconduct list

<https://www.wired.com/story/hack-exposes-kansas-city-kansas-polices-secret-misconduct-list>

F5 lost some source code and undisclosed flaws in BIG-IP

<https://www.bleepingcomputer.com/news/security/hackers-breach-f5-to-steal-undisclosed-big-ip-flaws-source-code/>

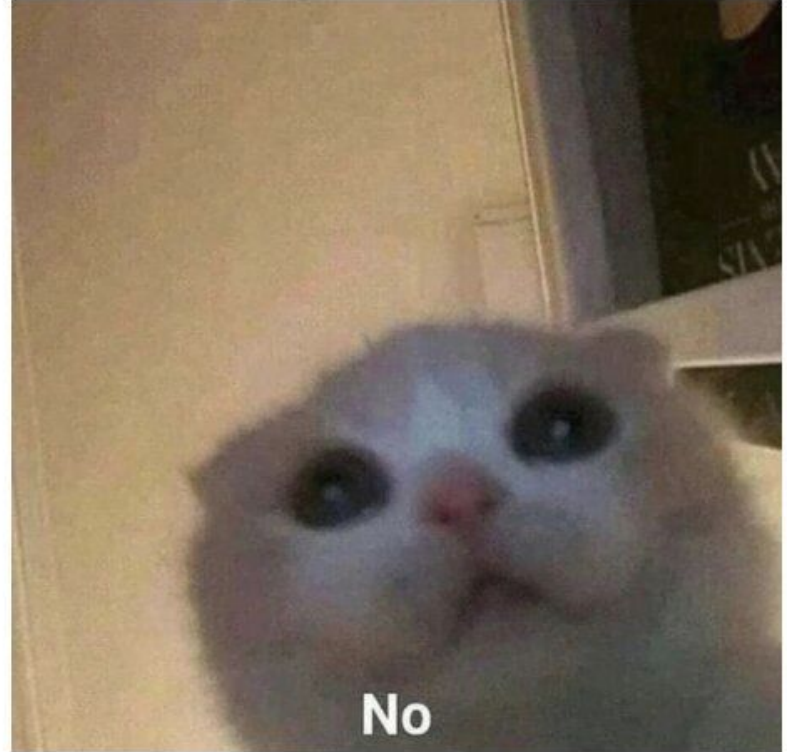

Congressional Budget Office got popped

<https://www.politico.com/live-updates/2025/11/10/congress/cbo-still-under-threat-00644930>

Kansas AG site was
hosting some stuff
they shouldn't

<https://www.kcur.org/politics-elections-and-government/2025-11-25/kansas-attorney-general-site-hosts-illicit-content-in-apparent-national-scam-campaign>

Logitech

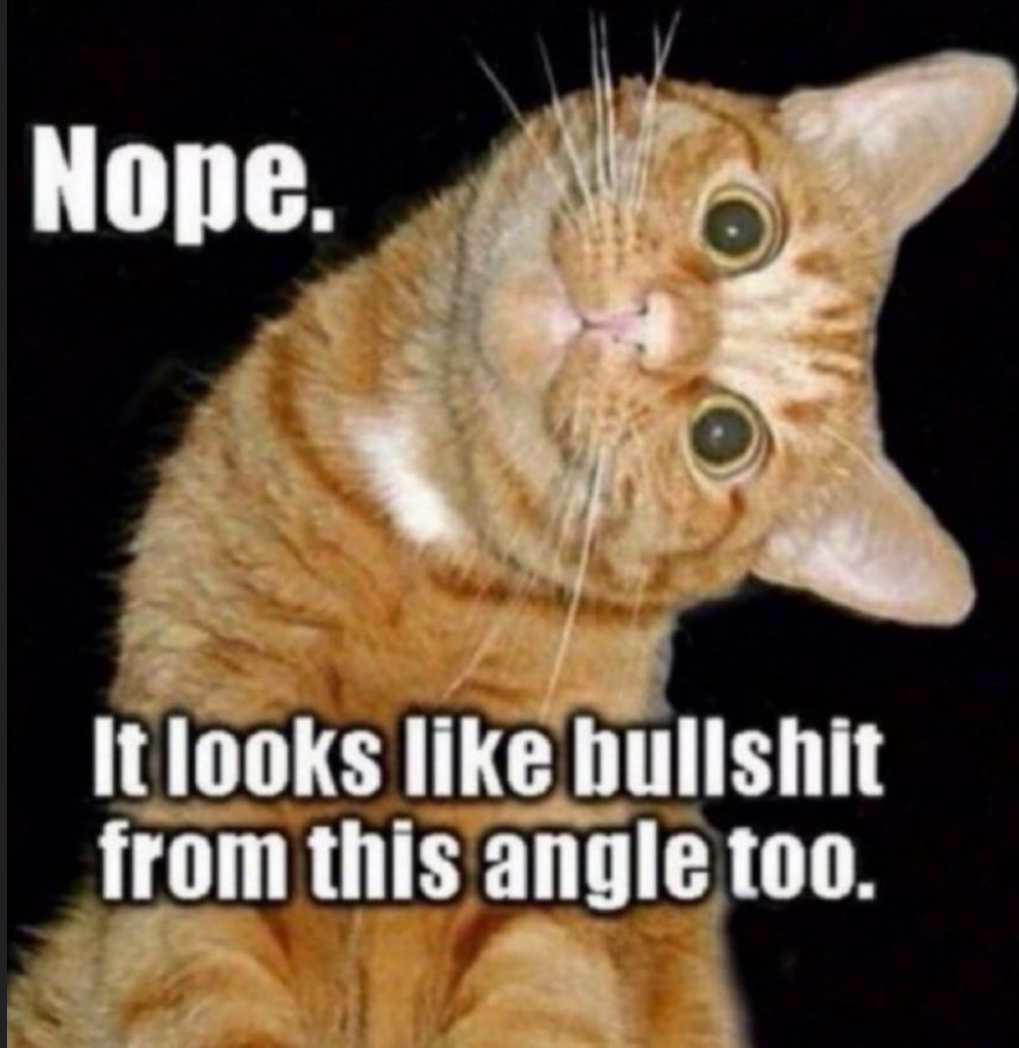

<https://www.tomshardware.com/tech-industry/hackers-steal-1-8tb-of-data-from-pc-peripheral-vendor-logitech-firm-says-zero-day-vulnerability-to-blame-no-sensitive-information-stolen>

700Credit

Nope.

**It looks like bullshit
from this angle too.**

Coupang

Korean retailer

Affected 33.7 million customers

PetCo

<https://techcrunch.com/2025/12/08/petcos-security-lapse-affected-customers-ssns-drivers-licenses-and-more/>

Funny Moments

Datacenters on hold because we don't have enough turbine engines

<https://www.tomshardware.com/tech-industry/turbine-shortage-threatens-ai-datacenters-as-wait-times-stretch-into-2030>

When you get Valve's Steam Machine and find out it actually runs on electricity

Cellebrite details leaked again

<https://www.404media.co/someone-snuck-into-a-cellebrite-microsoft-teams-call-and-leaked-phone-unlocking-details/>

The Louvre security camera
server's password was "Louvre"

Decommissioning the twitter.com domain

<https://techcrunch.com/2025/11/12/elon-musks-x-botched-its-security-key-switchover-locking-users-out/>

Meta has been
making money off of
bot accounts

<https://arstechnica.com/tech-policy/2025/11/bombshell-report-exposes-how-meta-relied-on-scam-a-d-profits-to-fund-ai/>

People be sending fake alerts

<https://www.reuters.com/world/us/fcc-says-hackers-hijack-us-radio-gear-send-fake-alerts-obscenities-2025-11-26/>

Plane + Pineapple

<https://www.bleepingcomputer.com/news/security/man-behind-in-flight-evil-twin-wifi-attacks-gets-7-years-in-prison/>

Skill Issues

pov you are a bread crumb

L3Harris “cyber boss” apparently was selling secrets to Russia

<https://techcrunch.com/2025/10/23/u-s-government-accuses-former-l3harris-cyber-boss-of-stealing-trade-secrets/>

ChatGPT was
down for a bit for
an unknown
reason

<https://www.bleepingcomputer.com/news/artificial-intelligence/chatgpt-is-down-worldwide-conversations-disappeared-for-users/amp/>

Frog put Claude in a box. "There," he said. "Now he cannot run `rm -rf /`." But he can run `bash -c 'rm -rf /'`, said Toad. That is true, said Frog.

AWS Outage

Party Favors **Pong** **Drinking Game** Ages 3+

Walmart you can't be advertising this to 3yo

Eight Sleep outage (cause of AWS)

<https://www.washingtonpost.com/technology/2025/10/22/amazon-aws-outage-eight-sleep-mattress/>

Azure Outage

Cloudflare Outage

<https://blog.cloudflare.com/18-november-2025-outage/>

Nice

Dev of the Week:

SPONGUS♥

Reviewed 12 PRs

Naughty

Dev of the Week:

BINGUS

Took down
Cloudflare

Cloudflare Outage (Part 2)

Ransomware

DoJ is accusing some
negotiators of assisting with
ransomware attacks

<https://techcrunch.com/2025/11/03/doj-accuses-us-ransomware-negotiators-of-launching-their-own-ransomware-attacks/>

Mildly Interesting

Python foundation withdraw grant proposals due to the current administration

<https://pyfound.blogspot.com/2025/10/NSF-funding-statement.html>

Feds seized a bunch of bullet proof hosting servers

<https://www.bleepingcomputer.com/news/security/dutch-police-seizes-250-servers-used-by-bulletproof-hosting-service/>

Cloudflare got in some trouble for manga piracy

<https://torrentfreak.com/tokyo-court-finds-cloudflare-liable-for-manga-piracy-in-long-running-lawsuit-liable-for-piracy-following-manga-publishers-lawsuit-251119/>

**run that by me again big
dog**

What The Fuck

ICE, SS, and the
Navy all have access
to Flock's nation wide
network

<https://www.404media.co/ice-secret-service-navy-all-had-access-to-flocks-nationwide-network-of-cameras/>

Google trying to
restrict sideloading
(aka installing an app)

[https://www.androidauthority.com/
android-power-users-install-unveri
fied-apps-3615310/](https://www.androidauthority.com/android-power-users-install-unverified-apps-3615310/)

Crucial wants money

<https://arstechnica.com/gadgets/2025/12/after-nearly-30-years-crucial-will-stop-selling-ram-to-consumers/>

Flock (like always)

Models need to be trained

They need data to be trained

Weird

<https://futurism.com/artificial-intelligence/ai-surveillance-flock-philippines>

CISA says you might get bricked(up?)

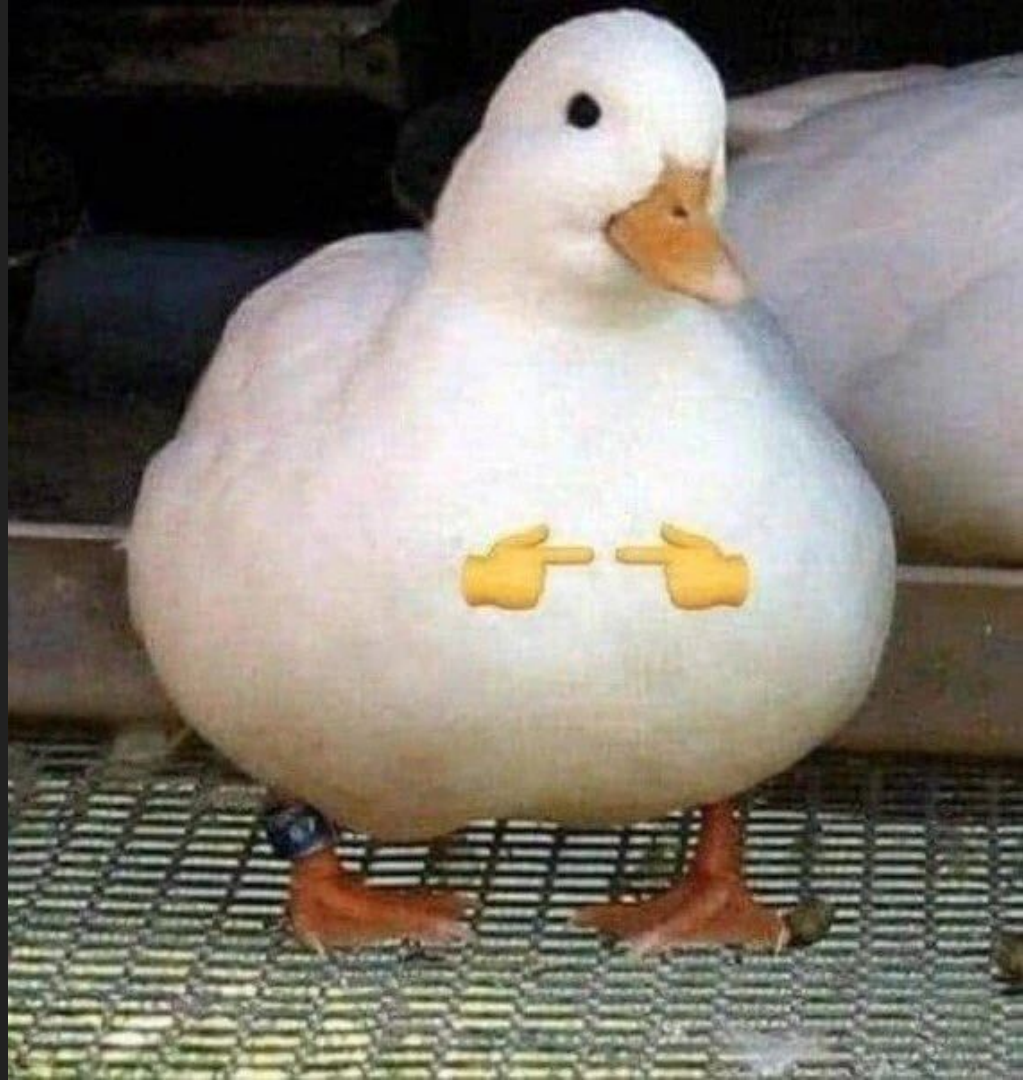

CISA says you might get hit by Brickstorm

My honest reaction

Missouri has age
verification laws now so
pornhub left

Since I don't smoke weed I now have
no reason to stay in Missouri, is
Kansas worth moving to?

Ending on a High Note

goober

ICC switching to OpenDesk

The International Criminal Court is ditching Microsoft Office, saying it's too dependent on US tech, in favor of Open Desk, a German open source alternative.

The move comes after Microsoft revoked ICC head Karim Khan's email access when he was sanctioned by the US for the warrant against Netanyahu.

TOR Update

<https://www.techradar.com/pro/security/tor-adds-another-layer-to-the-onion-with-a-new-relay-encryption-algorithm-boosting-resilience-and-security-across-the-board>

Portugal allows security research now

<https://www.bleepingcomputer.com/news/security/portugal-updates-cybercrime-law-to-exempt-security-researchers/>

Pixel 10 has Airdrop
(for now)

<https://www.theverge.com/news/825228/iphone-airdrop-android-quick-share-pixel-10>

What the hap

is fuckening

@therefore.yeehaw

SEC dropped the rest of the claims against the SolarWinds CISO

<https://www.crn.com/news/security/2025/sec-drops-remaining-claims-against-solarwinds-over-2020-hack>

Thanks for listening,
hope you enjoyed
