

SecKC News November 2024

By @net_code / Isaiah

Skill Issues

Microsoft did an oopsie

Microsoft lost some logs over a couple weeks in September.

<https://cyberplace.social/@GossiTheDog/113313392062371141>

Okta (again)

Okta being a little stupid again and fucking up bcrypt by concatenating username+passwords and hashing that, so anyone with a username longer than 52 characters could use any password to login.

https://www.theregister.com/2024/11/04/why_the_long_name_okta/

Nationwide and it's CEO

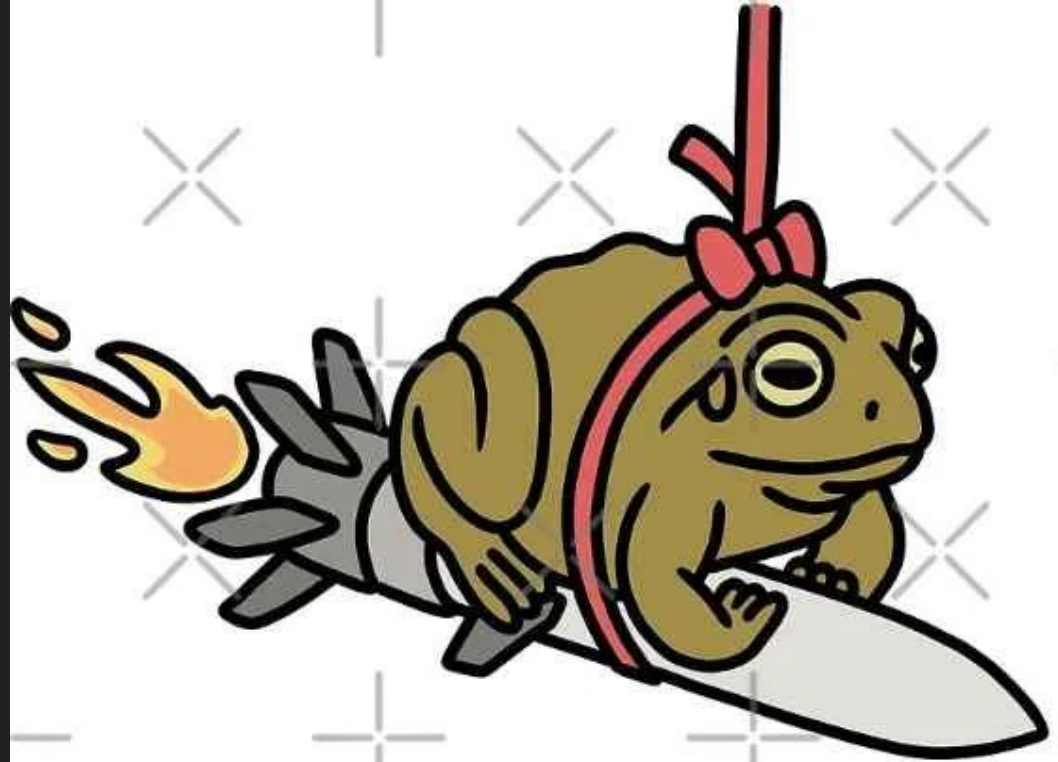

Wire fraud and something or other
to steal funds from the
government.

[https://www.justice.gov/usao-sdfl/
pr/nationwide-telecommunications
-provider-and-its-ceo-plead-guilty-
massively-defrauding](https://www.justice.gov/usao-sdfl/pr/nationwide-telecommunications-provider-and-its-ceo-plead-guilty-massively-defrauding)

Intern tried fucking with
Bytedance's AI model
they were working on

<https://arstechnica.com/tech-policy/2024/10/bytedance-intern-fired-for-planting-malicious-code-in-ai-models/>

*tis the season to kiss
under the missile-toad*

Supermicro is
(allegedly) trying to
pull a Enron

https://www.theregister.com/2024/10/30/supermicro_audit_ey_quit/

**MY HEEBIES
ARE FUCKING**

JEEBIED

CVE-2024-20418

Ultra-Reliable Wireless Backhaul
is not quite as secure as Cisco
seemed to think.

[https://www.theregister.com/2024/
11/07/cisco_uiws_flaw/](https://www.theregister.com/2024/11/07/cisco_uiws_flaw/)

Breaches

Trump, Vance, and some other people, had their phones hacked

https://www.nytimes.com/2024/10/25/us/politics/trump-vance-hack.html?unlocked_article_code=1.U04.dkDJ.2aP0tmFEROpJ&smid=url-share

Cisco data being sold on (breached I assume)

Data is/was being sold by IntelBroker and apparently it's a ton of developer data.

<https://www.bleepingcomputer.com/news/security/cisco-investigates-breach-after-stolen-data-for-sale-on-hacking-forum/>

ARE YOU MAKING A GOOD CHOICE?

499.99\$

kevin

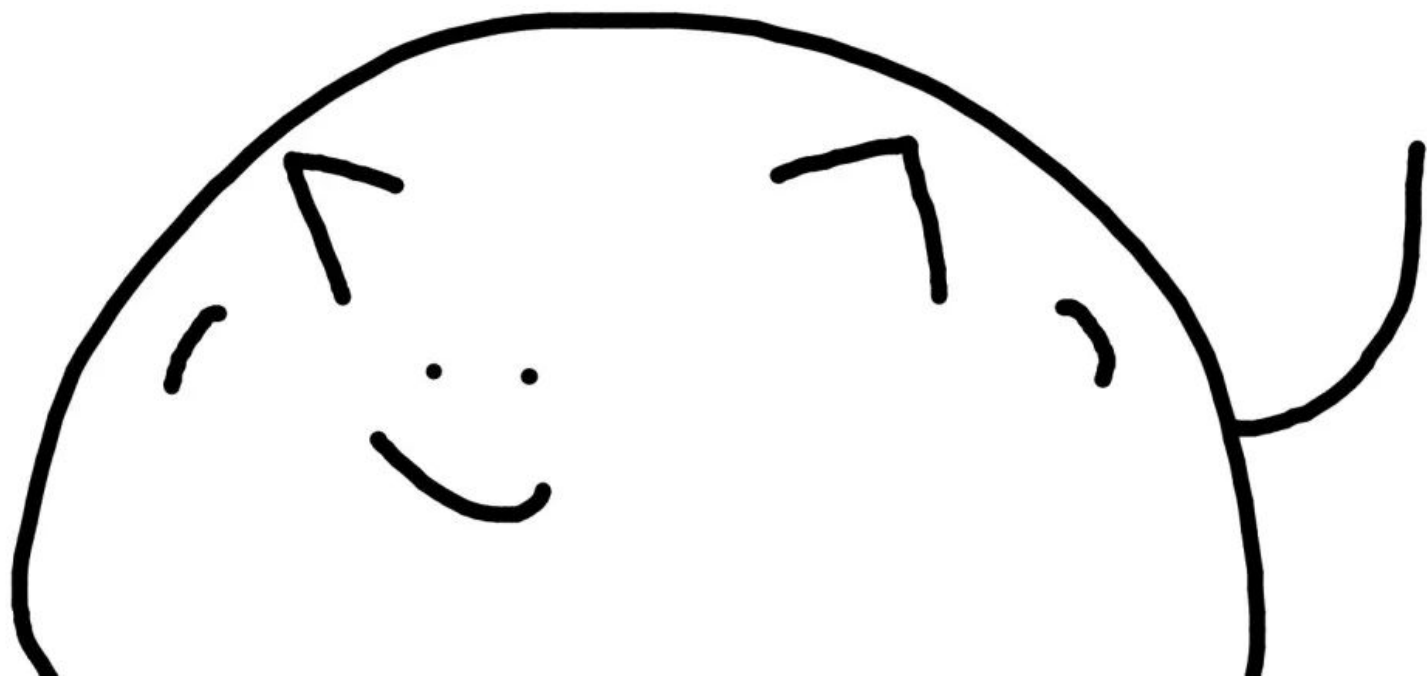

499.99\$

Amazon lost a ton of employee data

MoveIT can suck my ass.

Supposedly AWS and customer data was unaffected.

<https://www.bleepingcomputer.com/news/security/amazon-confirms-employee-data-breach-after-vendor-hack/>

Hot Topic

730GB, 54 million user emails, 25 million “lightly encrypted” credit cards.

<https://www.pcmag.com/news/hot-topic-breach-confirmed-millions-of-credit-cards-email-addresses-exposed>

Interesting Stuff

The police and I don't exactly get along.

Thanks Google (dickheads)

Google is continuing to roll out manifest v3 that would restrict addons like uBlock Origin.

<https://www.theverge.com/2024/10/15/24270981/google-chrome-ublock-origin-phaseout-manifest-v3-ad-blocker>

Sophos to acquire SecureWorks

Total of \$859 million.

<https://therecord.media/sophos-to-acquire-secureworks-859-million>

Missouri AG is trying to get Google to release information about google search.

<https://arstechnica.com/tech-policy/2024/10/missouri-ag-claims-google-censors-trump-demands-info-on-search-algorithm/>

Fake reviews are now illegal

<https://abcnews.go.com/US/wireStory/ftcs-rule-banning-fake-online-reviews-effect-115009298>

LinkedIn being fined for \$310M for targeted advertising.

<https://www.bleepingcomputer.com/news/legal/ireland-fines-linkedin-310-million-over-targeted-advertising/>

Right to Repair babyyyyyyy

<https://www.404media.co/it-is-now-legal-to-hack-mcflurry-machines-and-medical-devices-to-fix-them/>

Sanctions go brrrrrrr

<https://www.tomshardware.com/tech-industry/artificial-intelligence/indian-firms-secretly-funnelled-amd-nvidia-ai-gpus-to-russia-sanctions-reportedly-skirted-on-hundreds-of-millions-of-dollars-of-hardware>

Consumer Protection is cool

<https://abc7news.com/post/us-airlines-required-automatically-refund-significantly-changed-canceled-flight/15483534/>

Jamming GPS in the US is a crime (btw)

<https://www.reuters.com/world/europe/finland-detects-satellite-navigation-jamming-spoofing-baltic-sea-2024-10-31/>

Mozilla layoffs (1/3rd)

https://www.theregister.com/2024/11/06/mozilla_foundation_layoffs/

Bitwarden GPLing stuff

https://www.theregister.com/2024/11/04/bitwarden_gpls_password_manager/

Election interference™

<https://www.bleepingcomputer.com/news/security/us-warns-of-last-minute-iranian-and-russian-election-influence-ops/>
